MONEY, BONDS AND STOCKS,

A Decrease of Activity at New York, a Majority of Shares Being Fractionally Lower. NEW YORK, Nov. 15.-Money on call was easy at 11@2 per cent, the last loan being made at 2, closing offered at 11 @2.

Prime mercantile paper, 42 264 per cent. Sterling exchange was dull but steady at \$4.84} for sixty-day bills and \$4.87} for de-

The total sales of stocks to-day were 217,-855 shares, including the following: Delaware, Lackawaana & Western, 16,200; Erie, 3,300; Lake Shore, 20,530; Missouri Pacific, 3,560; Northwestern, 9, 100; Northern Pacific, preferred, 5,100: Oregon Transcontinental, 3,850; Reading, 53,700; Richmond & West Point, 15,900; St. Paul, 7,960; Union Pacific, 7,200; Western Union, 3,200.

The stock market was less active to-day, and the speculation was confined more than usually to a few stocks, and while the advance of the past two days was continued in the forenoon, the advantage was lost toward the close, leaving the great majority of the list fractionally lower than last evening. The news of the day was generally of an encouraging character, although there was nothing definite in regard to the progress made in fixing up the several railroad disputes now in process of adjustment. The street, however, was disposed to take a favorable view of the situation, and the general feeling was bullish. Outside of the professionals there was little doing, and the movements in the general list were for the most part without special significance and the more prominent shares gave evidence of manipulation, which was responsible for their larger fluctuations. The feature of the day was New England, the movement in which was still unexplained, but it moved more in unison with the rest of the list to-day than for a week past, while exhibiting marked strength. Next in point of interest came Catton Oil, which was very active, butilest a large portion of its advance of the past few days, the pressure upon it being very marked from the opening to the close. The proceedings against the Sugar Trust may have had something to do with the change in its temper, but the selling seemed to be general. Lake Shore was again weak, and, with Michigan Central, Missouri Pacific and Norfolk & Western preferred, showed the largest losses in the ictive stocks. Terminal preferred and Lackawanna were very strong in the early dealings, but gave way later, and the general list showed to further feature of note. The openng prices were heavy at small fractions below the closing figures of last evening, though New England was exceptional with a gain of a per cent. The business done was uniet and there was an inclination to weakness in the early dealings, but the tone of the market soon changed, and prices, under the lead of New England, quickly moved up and were maintained during most of the day at small fractions above the opening figures. No feature of importance marked the trading until well into the afternoon, when Cotton Oil gave way and the regular list followed slowly, and by 2 P. M. most of the list had been brought down again to the level of the opening figures. There was more pressure upon the list in the last hour, and everything traded in was depressed, the close being fairly active and weak at the lowest prices of the day. The entire active list, with but a few unimportant exceptions. is lower, though the declines are confined to fractional amounts

The railroad bond market was dull, the sales of all issues aggregating only \$921,000 for the day, and no feature whatever marked the limited dealings. The market followed the share list very closely, being firm in the forencon, but reacting toward the close, and the final changes, which are generally for small fractions only, are quite irregular. Government bonds were dull but firm to

Cheese strong and quiet; Western, 9@10 c. CHICAGO, Nov. 15 .- There was a little more doing in wheat to-day, outside business showing a very slight increase, with trading principally local. Prices were higher, the market opening | @ c above yesterday's closing, and advancing to more, then declined 1 @ 1 tc, again recovered, selling to outside prices, back [c, and closing about ic higher than yesterday. The decline in consols was construed to mean a tight money market in Europe by some operators, and war news by others, the latter receiving some confirmation by press dispatches reporting a mobilization of Russian troops, though thi was claimed to be for no aggressive movement, but merely a precautionary measure. The rumor that the French government was considering a proposition to take off the duty on wheat was also revived, and helped to strengthen the market, but, on the other hand, came the news that more mills had shut down in the Northwest and that the receipts there showed an increase. One thing which causes the frequent changes from weakness to strength is, no doubt, the fear of manipulation, and operators, although perhaps favoring the "short" side, as soon as the market shows a little strength, undertake to cover, and this helps to sustain the market at the present level. December delivery sold most of the day at about 2e discount as compared with May. Corn ruled quiet and inactive most of the sestrading being of a light lo-character, with fluctuations confined within to range. Opening sales were at about yesterday's closing prices, about which the market became dull and neglected, the actions of a large operator who was selling December, Janusry and May having a tendency to prevent any extensive trading, and at the close prices were age lower than yesterday. Oats exhibited more activity, trading being well distributed throughout the entire session. A firmer feeling developed in all speculative futures. "Shorts" were more anxious to cover, and prices advanced 10 to. At the advance offerings inbut all the appreciation was not maintained until the close. The near futures received more attention and were offered sparingly. Trading was only moderately active in mess pork, and the feeling was easier. January and May deliveries met with most favor, and transfers of contracts were made at 271 @ 30c difference. Prices ruled 5@74c lower. A little more attention was given to lard, but trading was moderate. The feeling was firmer and prices averaged a little higher, especially for the near deliveries. Moderate trading was reported in short ribs, and the changes in prices were slight Leading futures ranged as

MINNEAPOLIS. Nov. 15 .- Despite the heavy receipts of wheat here, the sample tables were not heavily loaded with offerings in the morning. Sellers were holding for another advance. A majority of sales ranged above yesterday's figures, though the demand from local millers was not as large. The outside trader was in the market, and the strong tone of speculative markets stimulated prices for milling wheat somewhat. Some dealers complained of lack of demand for low-grade stuff, and others who had a few cars of hard were not forcing sales. Sales to ar-rive were frequent of Northern grades. More Rain and Muddy Roads Checking Trade. but the Volume Is Good for November.

INDIANAPOLIS, Nov. 15. More rain is making the mud deep, and some of the country roads are almost impassible for a loaded wagon, and this is checking trade. Country merchants are carrying light stocks and are disposed to purchase liberally, now that the election is over. The volume of business now in progress is good for the unfavorable couditions, and that it would be much larger is evident but for the adverse circumstances above mentioned. A number of buyers from towns on the railroads were in to-day, and the dry goods men and grocers were quite busy. The traveling salesmen also sent in good orders, but a cheerful sun and solid roads would still further improve trade. In prices .there were but few fluctuations. Dry goods of all descriptions carry a firm tone. Coffees are moderately active, and prices unchanged, but they cannot be said to be firm. Sugars, as well, are a little weak on increasing production, yet stocks carried in the West are light, and no marked break in prices need be expected in the immediate future. The canning season is well over, and the demand for this class of goods will be lighter. The produces markets are fairly active. Choice butter, oth creamery and country, are in light supply, and prices rule firm. Eggs are coming in slowly, and prices are strong and advancing in their tendency. Poultry is in better demand, and prices rule firm, although they are no higher. The hide market is moving along in the rut of several months past, and handlers say they are making but little morey, so low do prices range. Leather dealers report trade good and prices un-changed. Oranges are in better supply and bet-ter in quality, while prices rule a little weaker. Beans are coming in more freely, and they are

weak at the reduction in price noted on Wednes-

There was rather a small attendance on Change to-day, but the bidding was more spirted than on Wednesday The Indianapolis Market Report says:

Conveyances, 17; consideration......\$40,272.50 Cotonel Jones, of St. Louis. New Orleans Times-Democrat.

Among the journalistic shiftings that have taken place during the past year is the removal of Charles H. Jones from the Jacksonville Times-Union to the St. Louis Republic. " * " His removal to St. Leuis, however, has been singularly disastrous to the Democratic cause. His editorial management of the chief Democratic paper of St. Louis, the Republic, has brought unexpected disasters not only to the local, but to the national Democracy. It is bad news to hear that the good old Democratic city of St. Louis has swung over to the Republican column; that every official elected there is a Republican, and that the Democratic candidate for Governor, although an honored and popular citizen of St. Louis, is beaten by 10,674 majority in his own city. This is bad enough, but it concerns only the Missouri Democrats. What concerns the national Democracy is the election of three Republican Congressmen from St. Louis to take the place of three Democrats. Nowhere else in the Union has there been such a Colossal and disastrous defeat. It gives the Republicans control of the House and of Congress, with full power to carry through any legislation they see fit.

Colonel Jones and the St. Louis Republic have kept a bad watch at their end of the line. They have lost the Democracy St. Louis and the national House of Representatives. In future compaigns the Democratic managers should take care to send Colonel Jones to Texas, or some other locality where his blundering will not hurt the party so much, and where there will be no danger of his transferring three Democratic districts to the Republicans.

True Sympathy.

Rochester Union and Advertiser. Time, yesterday morning. Scene, barber shop in Rochester-Worn and saddened man,

rising clean-shaven from the chair, sighs and "Thanks. Tom; you did that particularly well. Here!" and he proffers a quarter. Barber, subdued and sympathetic, with a deprecatory costure: "No, sir. not to-day. No charge for you, sir. I'm a Democrat myself."
